BANDIT PAIR GETS $14,000 IN CASH IN MARION RAID

County Treasurer Is Robbed By First Visitors to His Office.

Is Rendered Unconscious By Blow From Revolver on Head.

Marion, Jan. 26.—Two bandits early this morning entered the office of the county treasurer in the court house here, knocked Treasurer Harry E. Forry unconscious with the butt of a revolver and escaped in an automobile with $14,750 in cash.

Treasurer Forry arrived at his office, unusually early to arrange for the handling of last minute tax payments. He had opened the big office vault, obtained several thousand dollars in change and had again closed and locked the vault when the bandits entered.

The two robbers crept up on him and knocked him over the head with the end of a revolver, dropping him unconscious to the floor. They hurriedly grabbed the money and left, making their escape in a waiting automobile.

The vault contained between $50,000 and $75,000 in tax money, which the robbers did not get because of Treasurer Forry's foresight in locking the safe after taking out the money to be used as change in the day's business.

Treasurer Forry told the police that not a word was exchanged during the robbery. One bandit stood guard at the door, while the other pointed a revolver at the treasurer, hitting him over the head when he got close enough.

Mr. Forry said he noticed the two young men loafing in the court house corridor when he entered the building, but told police he could identify only the man who hit him. This man, he said, weighed about 150 pounds, was youthful in appearance, and wore a brown suit and cap.

No other county employes were in the building at the time of the robbery.

Police of all towns and cities in central Ohio have been notified to be on the lookout for the robbers.

HARDING PLAYS GOLF; TO TRY FISHING LATER

Fort Pierce, Florida, Jan. 26.—Golf attracted President Elect Harding ashore from his houseboat, the Victoria, again today, the vacation party putting in here early in the days run for a round of the Fort Pierce links. It was midday before the journey southward was resumed and indications were that the Victoria would not reach Palm Beach until tomorrow. So far golf has been the only reaction of the president elect and his companions since they left St. Augustine Saturday.

Fishing is to be a big factor of the vacation trip before it is over but for the present they prefer to spend theirs aboard their house boat lounging on deck. It is likely that before turning northward on the return trip they will spend several days on the fishing grounds near Miami.

BABE ABANDONED BY ZANESVILLE WOMEN

Cleveland, Jan. 26.—A day-old baby girl, scantily clad, was abandoned in a taxicab by two well-dressed women yesterday. The woman, according to Bert C. Hoffer, the chauffeur, got into the machine at Union station and told him they wanted to place the baby in some institution. Hoffer drove to the Rose building to find out from a physician where the infant could be placed, and when he returned in 20 minutes the women were gone.

"The women told me they wanted to go back to Zanesville late today," Hoffer said.

WILL NOT CERTIFY GAS RATE PETITIONS

In a letter to City Auditor Clifford Frye, City Solicitor Ashcraft states that the seven referendum petitions on the gas case, containing 1307 names, and which Mr. Frye states were filed January 21 at 8:30 p. m., were filed too late and that the auditor is therefore not required to certify them to the county board of elections. Mr. Ashcraft in his letter quotes from the general code of Ohio and from the attorney general's report, as given last week.

WILL TEST LAW AGAINST FIGHT FILMS

Milwaukee, Jan. 26.—Motion pictures of the Dempsey-Brennan championship fight recently held at New York are on their way to Milwaukee, and will be shown next week as a test of the federal law prohibiting transportation of prize fight films in interstate commerce, it was announced today by Ray Cannon, attorney for Dempsey. The pictures are not to be shown for profit, Cannon said, and federal officials are invited to arrest the exhibitors, he added.

MOB TAKES NEGRO FROM OFFICERS ON TRAIN

Memphis, Jan. 26.—Henry Lowry, negro, charged with the killing of O. T. Craig, a planter and Craig's daughter, Mrs. C. O. Williamson at their home near Wilson, Arkansas, Christmas day, was taken from officers at Sardis, Miss., early today by a mob which took him away in an automobile.

A telephone report said Lowry was taken from a north bound Illinois Central train, aboard which he was being returned to Arkansas from El Paso, Texas, where he was captured last week.

WOULD LEGISLATE TO STOP FURTHER ELECTION FRAUDS

M. Clyde Kelly.

M. Clyde Kelly, Pennsylvania congressman, has offered a bill in the house to amend the original code of the United States to prohibit a recurrence of frauds such as those which occurred in his state in the primary elections of last May. His measure provides a fine of not more than $10,000 and ten years in prison for conspiracy to "injure, oppress, threaten or intimidate any citizen in the free exercise of his rights under the constitution."

RAIL OFFICIALS AGAIN POSTPONE SUBWAY MEETING

New Changes Proposed In Plans Have Not Been Worked Out By Engineers — Some of Data Missing.

The meeting of officials from the engineers department of the Pennsylvania and Baltimore & Ohio railroads, and local representatives to have been held here pertaining to the subway, has been postponed.

A meeting of these officials with local people was held November 23 at the Chamber of Commerce, and the matter was put to the railroads, outlining the loss Newark is suffering through the failure of the railroads to live up to their part of the agreement.

These officials were asked then to set a time when this work would be done and they left promising to return to Newark within 6 or 8 weeks, with further details and a possible tentative outline of how soon the work could be done.

Instead, however, Manager Lewis of the Chamber of Commerce has received a communication from A. C. Clarke, of the B. & O. company. In this communication Clark states he has conferred with Mr. Ericson of the Pennsylvania company and that their efforts have been delayed.

They do not believe the "work will be ready for presentation for perhaps as much as another month.

Mr. Clarke states it is necessary to make a complete new estimate of the cost as laid down in the plan dated December 22, 1915. "The original plans estimate was made for 1913 and we have not been able to revise this estimate so far as to fit the later and adopted plan," "We have had difficulty in gathering together the old note books and cross sections which are necessary in order to make a proper detailed estimate, and like Mr. Ericson we are handicapped by shortage of engineering force..

"If you would call the meeting now it seems to Mr. Ericson and me that we would have nothing really satisfactory to present in the case, and we believe it would be much better if the next meeting were held off until the latter part of February so we might come with something really tangible."

20-YEAR OLD BATTLE RECALLED BY TRIAL

Oklahoma City, Okla., Jan. 26.—A battle between United States marshals and members of a notorious outlaw band in the days when the Indian Territory, now Oklahoma, was a refuge for bandits, is the basis for the trial starting today of Clarence Simmons.

Near what is now Pawhuska, Oklahoma, two members of the famous Martin gang were killed and Wyley Haines, deputy United States marshal, was wounded in 1903. Simons, it is charged, was a member of the Martin gang, and is under indictment for the wounding of Haines and robberies committed by the Martin gang. Haines is present as a witness against him.

Simmons was arrested in Booneville, Missouri, last March. He declared he was in Jacksonville, Florida, two years before and at the time of the fight with the robbers.

WETS CLAIM VICTORY.

Coshocton, Jan. 26.—Tunis Elson, fined $1,000 by Mayor W .S. Tish recently for violation of the Crabbe prohibition act, has been granted a new trial by Common Pleas Judge Glenn here. Elson was represented by C. Homer Durand, former state wet leader, who said the decision was his first victory in an attempt to prove the Crabbe law unconstitutional.

FOE'S FINANCIAL SITUATION LAID BEFORE PREMIERS

Discussion of Reparations Is Taken Up at Paris Conference.

Lloyd George Smarts Under Crtiicism of French Newspapers.

Paris, Jan. 26.—Paul Dourmer, French minister of finance, opened the discussion of German reparations by the supreme allied council here this morning and read a report on the financial situation and outlined the French viewpoint concerning a solution of the reparation question. The conference then heard Baron Edgar Vincent D'Abrenon, British ambassador to Germany. M. Doumer's report occupied practically the whole of the morning session. It was ordered translated and communicated to the allied experts this afternoon. Meanwhile the conference plans to discuss the Polish and near eastern questions and to take up the compensation issue again tomorrow. The position adopted by M. Dourmer in his report, it developed as he proceeded to its conclusion, was a return to the terms of Article 233 of the treaty of Versailles which places the duty of determining the compensation to be paid by Germany with the reparations commission. He advocated strict adherence to the terms of that article.

At the conclusion of the morning session, Premiers Lloyd George and Briand took luncheon together for a private discussion of the reparations question.

Premier Lloyd George is understood to have taken umbrage to an article in a Paris newspaper criticizing his attitude on various questions now being discussed by the supreme allied council and has complained bitterly to Premier Briand regarding the tone of the French press, says the Oeuvre.

"Since I am treated this way," the newspaper quotes Lloyd George as saying, "I tell you I will never come to Paris again."

M. Briand, in consequence of this protest, appealed to newspaper reporters last night to use more moderation in writing of the work of the supreme council.

"I am not supported by all of you," he declared. "Indiscretions, even pure inventions, were printed this morning, which do not please my interlocturers. If that gos on you will make it impossible for any more meetings to be held in Paris."

Allied military experts today handed the supreme council their report on a plan for the disbandment of German military units. The reports gave satisfaction to the French viewpoint on the question, providing for full compliance with all disarmament clauses of the Versailles treaty.

It concedes to Great Britain a further delay which was asked for on Monday before the supreme council by Premier Lloyd George. Two-thirds of the operation of disarmament must be completed by March 1, and the work must be finished by July 1.

Hiram, Jan. 26.—The general education board has made Hiram college a conditional grant of $200,000 for endowment and $32,000 for current expenses, according to an announcement made by President Miner Lee Bates of Hiram in the February issue of the bulletin of Hiram college. To qualify the $200,000 the college must raise an additional $400,000 for endowment. The date by which this must be raised has not yet been determined. MISS MAC SWINEY CALLS ON GOVERNOR DAVIS

Columbus, Jan. 26.—Miss Mary MacSwiney, sister of the former lord mayor of Cork, who is in this country to appeal for recognition of the Irish Republic, this morning called on Governor Davis to enlist his aid. She changed her plans and will not go to Cincinnati until tomorrow.

At noon she addressed the Kiwanis club and tonight will talk to a meeting of Irish sympathizers. Late yesterday, in an address before the legislature, Miss MacSwiney asked Ohio lawmakers to go on record as favoring recognition of the Irish Republic, declaring that such action would be in line with this government's policy of extending aid to small nations.

Miss MacSwiney had planned to go to Cincinnati today but suddenly changed her mind.

The group above shows the members of his party and the host. The "Victoria," Senator Frelinghuysen's houseboat, on which the party is staying, is a palatial affair for its size, ideally built for inland cruises. The president-elect will return to Washington toward the middle of February to complete details for his inauguration.

24 ON TRIAL FOR MURDER

Disorders In West Virginia Mining Community That Resulted in Clash Between Miners and Mine Guards Will Be Aired.

Williamson, W. Va., Jan. 26.—Twenty-four men from the little mining town of Matewan, five miles away, were here today to answer to the charge of murder before Judge R. D. Bailey in the Mingo county circuit court. They were indicted last July for the part they are alleged to have taken in a battle with private detectives who had evicted former employes of the Stone Mountain Coal company from the company houses. In the fight seven detectives, the mayor, C. C. Testerman and two other citizens were killed.

The trials were set for the September term of court, but were postponed until January 19 and each of the defendants released on $10,000 bond. It was then decided on further postponement until today and last night all preparations for a trial had been completed. Two hundred veniremen had been summond from among whom it was hoped the jurors would be obtained, and scores of friends and relatives of the accused men had come in from all parts of the county.

The defendants are Sid Hatfield, chief of police of Matewan; Reece Chambers, William Bowman, Clair Overstreet, "Doug" Mounts, Jessie Boyd, Isaac Brewer, Charles Kiser, Ben Mounts, William B. Coleman, Ed. Chambers, Lee Taylor, James Overstreet, Fred Burgraft, "At" Williams, B. R. Page, Fred Webb, Van Clay, Albert Burgraft, Calvin McCoy, Hallie Chambers, N. H. Atwood, William Starr, and Ezra Fry, the latter a union organizer.

The indictments charge that they killed Albert C. Felts, Lee Felts, J. W. Ferguson, A. J. Booher, E. O. Powell, C. B. Cunningham and C. T. Higgins, all employes of the Baldwin-Felts detective agency. In addition to the indictment for murder, Hatfield was indicted for stealing $700 from the body of Albert Felts and others of the defendants and for stealing weapons belonging to the dead detectives.

Five detectives who escaped during the battle were indicted for killing Mayor Testerman, but were granted a change of venue and will be tried in Greenbrier county.

For several months before the battle, organizers of the United Mine Workers of America had been busy forming local unions among the miners of Mingo county. Employes of the Stone Mountain Coal company at Matewan joined the union, and it was stated at that time, were ordered to move from company houses. Some of them, however, were still in possession on May 19 and a party of private detectives were sent from Bluefield to serve writs of injunction. They had completed their work and were on their way to the Norfolk and Western railroad station late in the afternoon when the fight occurred.

"Anse" Hatfield, proprietor of the hotel at Matewan, was looked upon as an important witness in the case. He was shot dead within a month after the indictments were returned, and Sid Hatfield, Hallie, Ed and Tait Chambers were afterward indicted for the killing.

"I educated two girls and they ran away" said Mrs. Ladzikoski. "Agnes—she'll work. If she doesn't she can't eat here."

When a city welfare worker found Agnes yesterday the mother's edict had caused Agnes to go without food for 25 hours.

CROWING COCK TIPS OFF FIGHT

Canton Officers Round Up Sports In Elaborately Prepared Arena In Myers Lake Ball Park.

Canton, Jan. 26.—A lusty young rooster who simply couldn't resist the temptation to crow, put the quietus last night on what was to have been the biggest cock fight ever held in this section of the state in recent years and disappointed more than 100 fans who had gathered from Alliance, Massillon, Akron and Pittsburgh.

Every thing was set for the big event when two automobiles loaded with deputy sheriffs landed at Meyers Lake park and started a systematical search of the grounds. After hunting over a greater part of the park the officers were about to give up the expedition when the faint but unmistakable crow of a rooster came to their ears from the vicinity of the old ball park.

The building in which the fights were to have been staged was cleverly concealed from outside observation. Not a light showed and it was with difficulty that the officers finally found the entrance door and pushed it open. Only a few men were in the room when the deputies entered but no attempt to escape was made as the fight had not yet started.

Inside the building had been constructed a real arena for a real gladiatorial contest. In the center of the room was a pit 18 feet square lighted almost as well as a prize ring. Ranged around the pit were seats for more than 300 spectators and 12 fighting cocks. Those in charge told the officers that the work on the building had required four weeks to complete.

No arrests were made by the officers.

Nicholas L. Bogan, deputy United States marshal and Benjamin D. Ludin, former deputy marshal in the Pittsburgh office, were indicted yesterday on charges of attempting to run 100 cases of whiskey into Ohio from Pittsburgh. The secret indictments are said to be in the same case. Bogan and Ludin were arrested with four other men in Youngstown last May by Federal Prohibition Agent D. M. Brown and Sheriff Ben Harris of Mahoning county. They were released on bail and their identities withheld until indicted yesterday. Assistant District Attorney Eastman said the four other men indicted were Charles Fisher, Peter Rebel, Joseph Biener nad J. M. Luterman.

The six men are charged with three separate counts of violation of the Volstead act, illegal possesison, transferring without license and selling.

HOUSE WILL NOT ATTEMPT TO PASS DRY BILL TODAY

Leaders Say Action Will Not Be Hurried When Bill Is Received.

Senate Committee Recommends Passage of Anti-Screen Law.

Columbus, Jan. 26.—Temperance leaders in the house announced today that the house would not attempt to pass the Miller prohibition enforcement bill when it is messaged from the senate this afternoon.

The senate temperance committee today recommended for passage the Bender anti-screen bill requiring the removal of screens from front doors and windows of all soft drink establishments. The committee also recommended for passage the Pence bill to levy a tax of 20 cents a gallon on all whiskies in bonded warehouses before it can be removed.

A bill will be introduced in the senate this afternoon by Senator Bender of Cleveland to require the teaching of American history in all public and private schools in the state and to include civil government in the curriculum of all schools and colleges.

The senate committee on county affairs today postponed action for one week on the county officers term extender bill, recommitted to it after having once been recommended for passage. Senator Reynolds, Democrat of Cleveland, pointed out to the committee today that passage of this bill would deprive women from running for office for four years. He also called attention to the fact that members of the legislature would have to be elected in two years and that they would be practically alone on the ticket if county officers had their terms extended.

The only opposition to the enforcement bill in the senate came from the four Hamilton county senators. Senator Endley of Richland county joined the Hamilton county senators in opposing the emergency clause.

If the house passes the bill with the emergency clause, it is said the courts will be appealed to for ruling as to whether an emergency actually exists. If the courts should declare no emergency exists, then the bill would be open to a referendum.

Before its passage in the senate it was amended to prohibit any search and seizure in bonafide private residences and to require establishment of proof of unlawful manufacture, sale or possession of liquor before a search warrant can be issued.

After having been recommended for passage last week, the county officers term extension bill, giving all county officers term extension bill, giving all county officials elected last November a four-year term and providing for four year terms hereafter, was facing the breakers today. It has been recommitted to the committee on county affairs and it was said, it would probably be amended so as to eliminate the extension of terms. Democratic leaders were threatening a referendum on the bill if it passed.

Abolition of the state board of clemency and the indeterminate sentence law, and providing for full publicity on all paroles is proposed in a bill by Representative Gorrell of Carroll county. The bill also abolishes indeterminate sentences and would stop the imposing of suspended sentences by courts.

A bill introduced by Senator Hopley yesterday as an emergency measure would abolish the state highway advisory board. It is said to be in line with the reorganization program of Governor Davis in connection with the highway department. The house taxation committee will formally recommend for passage today the Taft bill to permit cities to issue deficiency bonds to take care of 1921 deficits in current operating expenses.

The committee visited the state prison farm at London yesterday taking testimony of state employes connected with the farm. Governor Davis has requested the committee to extend its investigation to all state owned herds.

TEXAS LEAGUER 30 YEARS OLD

Expression Originated When Three Texas-Trained Ball Players Worried Syracuse Pitcher By Short Hits.

Dallas, Texas Jan. 26.—"Texas Leaguers," recruits or stars from the circuit of cities in the Lone Star state, making up that association have wrecked many ball games when they passed on to the major league, but the "Texas Leaguer" the hit itself, no matter from what state the player who delivered it came has wrecked many more, day by day narrations of play have shown for years.

Every fan, from the lad at the knot hole to the man in the box seats knows a "Texas Leaguer" when he sees it drop safely just back of the infield and out of reach of the outfielders but few know the history of the expression.

According to J. Doak Roberts president of the Texas League, and a man of life time's experience in professional baseball, the expression originated in the early "nineties" when a disgusted Syracuse pitcher gave vent to "Good Lord." Another of those Texas Leaguers," when Scrappy Bill Joyce, third in a row of three Texas League graduates, dropped a short safety back of the Syracuse infield.

The story antedates even the veteran Roberts, but this is his version of it:

Emmet Rogers, Scrappy Bill Joyce, and Arthur Sunday three famous players well remembered by all of the old timers, were members of the 1889 team of the Houston club managed by John McCloskey. They were the first Texas Leaguers ever sold to higher company, netting the sum of $400 as a total purchase price.

"The trio were finished stars, past masters in the art of lunging and placing hits. The story goes that in their first game in bigger company they faced O'Brien of Syracuse. Rogers placed a hit over the infield and the Syracuse defense moved in expecting Sunday to bunt. Instead Sunday chin-shooted the ball and it dropped just out of reach of the shortstop, who could not get in back in time.

"Joyce, too was expected to bunt, but he followed in Sunday's wake, spanking another short hit back of third, scoring Rogers.

"It was then that O'Brien voiced his disgust and coined a new term for baseball."

WANTS MILITARISTS FIRED FROM CABINET

Peking, Jan. 26.—The Peking government has received a note from Dr. Sun Yat-sen, head of the newly organized "extraordinary" government of South China at Canton, making three demands which he says the Peking government must meet before the Canton group will entertain the proposition for reunification of the country.

The demands are for dismissal from the Peking administration of all militarists, including Premier Chin Yun-peng, who is also minister of war; cancellation of the mandate recently issued by the Peking government announcing the union of the two factions in North and South China, and a pledge not to negotiate any further foreign loans.

The government, according to a high authority, considers the demands impossible an dan evidence of a lack of desire on the part of the southerners to encourage peace efforts.

Many remarkable fossils of extinct animals have been found in the Bad Lands of the Dakotas.

Angus Irvine may not begin his sentence in the Mansfield reformitory until the first of next week, Sheriff E. A. Bryan said today. Irvine asked that his trip to Mansfield be delayed if possible to permit him to settle business matters before his departure.

Irvine received his sentence cooly and without any emotion. When the court questioned him before passing sentence, he answered in a firm voice.

He told the court he had been employed as a cigar roller, a taxi driver and that he was employed at the Burke Golt company's plant.

He repeated his charge, made at the time of his arrest, that his crippled condition was due to mistreatment by his father.

OAKOAL STOCK

The stock of the TORONTO OAKOAL CO. HAS DOUBLED its value.

Just picture yourself receiving regularly these dividend checks and the improvement and good effect they will have on your life. Can you afford to stay back and lose what many others will get!

OAKOAL STOCK SELLING FAST

Our small issue of stock is selling fast. Everyone recognizes its great value as an investment. Your opportunity to buy it and be among those who will make a fortune from OAKOAL is right now, and not later on.

It takes nerve to make money! Have you got the nerve? Have you got the courage to decide for yourself as hundreds of others have done and make your fortune from OAKOAL?

YOUR OWN JUDGMENT IS YOUR BEST FRIEND

Chauncey M. Depew was offered in 1898 one-sixth of the Bell Telephone Company's stock for Ten Thousand Dollars. He believed in the investment, but did not have the courage to decide for himself. He thought he had better seek the advice of a friend of his, a telegraph engineer, who was supposed to be the most expert telegraphic engineer in the country. This man said to him: "It is a commercial toy; it is a fake; drop it." And now Mr. Depew says: "Had I acted as my better judgment told me to do, I would have bought stock then that would have made me now a hundred millionaire. A fortune was lost to me because I depended on the judgment of others."

Can you decide for yourself? It means the making of your fortune if you can. A few hundred dollars invested in OAKOAL will start you on the road to success.

COMEDY IS "A WHALE;" WHY NOT HAVE A WHALE IN A FUNNY COMEDY?

An admirer of Jimmy Aubrey, speaking of one of his comedies declared it was "a whale." The popular comedian heard the remark while he was cudgeling his brains for something new for his next comedy.

"Why not a whale?" he asked himself, and instantly decided that a huge cetacian could be made quite useful in a rollicking comedy. But how? Whales are best known for the oil they provide, and recently for steaks, but the extraction of oil and steaks spoils the whale. Jimmy wanted a living whale in action.

There was once a whale which became famous in an act featuring one Jonah. Jimmy Aubrey decided to adapt the idea. That is how it comes that lovers of fun will have the pleasure of seeing Jimmy eaten by a whale in the comedy; "His Jonah Day," is added attraction at Grand last times today.

"THE GIRL IN THE LIMOUSINE" AT AUDITORIUM SATURDAY

"The Girl in the Limousine" will be presented for an engagement of matinee and evening at the Auditorium theater on Saturday, January 29. This romping farce was written by Wilson Collison, co-author of "Up in Mabel's Room," and Avery Hopwood, author of "The Gold Diggers." It has had a successful run in New York for more than eight months, and has been enjoyed by Boston and Chicago audiences for a few weeks. A. H. Woods is the producer and offers "The Girl in the Limousine" with the following notable cast: Harlan Briggs, Thomas J. Evans, Dunn Malloy, Daniel Stevens, Jane Iden, Mary Diehl, Viola Scott and others. Seat sale opens Thursday. Would advise to make your selection early.

"KISMET" BIGGEST PICTURE AT AUDITORIUM

"Kismet," the Robertson-Cole super-special picture starring Otis Skinner, which opened at the Auditorium theater yesterday, is the wonder film of the age. A wonderful story, wonderful star, wonderful cast and wonderfully produced. From the enthusiastic manner in which the audience received the photo-play last night, the play will be seen at the Auditorium Thursday and Friday afternoon. Special matinee Friday afternoon for the children.

Louis J. Gasnier, who directed "Kismet," attained a perfection of detail that could not be improved upon.

The cost of making this production must have been tremendous. The scenes of the old Turkish city of Bagdad are perfectly presented and carry an atmosphere that transports the audience from the theater to the Orient. The desert scenes with the picturesque Arabs and their fleet steeds, are superb. All of the interior settings are true in every detail and include the magnificent tapestries and hangings which go with Oriental splendor.

For three seasons Otis Skinner, on the stage, played the role of Hajj the beggar and it was agreed among the critics that his interpretation of this picturesque character was perfect and the best work of his career. Edward Knoblock, the author of "Kismet" declared that Mr. Skinner's wonderful art had made a great change for the better in the character as he, Knoblock, had first visualized it. In the picture, Mr. Skinner is at his best. It is impossible to cheat the camera. The most minute detail is registered. If Mr. Skinner makes one useless gesture or facial contortion throughout his performance it is not noticable. So clever is his work that the individual feels refreshed mentally and physically for having seen it.

This is Mr. Skinner's first picture. It was with difficulty that he was persuaded to leave his beloved stage to appear on the screen.

A SCENE FROM "THE TRAIL OF THE LONESOME PINE."

"FIREBRAND TREVISON" IS VOTED "SOME PLAY"

"Some play," was the audible verdict of many who passed out of the Alhambra theater yesterday after the initial showing here of "Firebrand Trevison," presented by Wm. Fox with Buck Jones as star. And the verdict was justified.

Charles Alden Seltzer as author, Denison Clift of scenarist, and Thos. N. Heffron as director, have supplied in combination a screen winner to which the intrepid Buck Jones and his excellent company do full justice in execution. Like all westerns, it has the hero unafraid, the heroine charming, the incorrigible "bad man," and shooting and stunts galore; but it is unique in the startling nature of the stunts and in its intricacy of plot.

Nothing finer in cowboy life, daring and romance has been shown upon the screen. Winifred Westover is the leading woman, and in the cast are Martha Mattox, Stanton Heck, Katherine Van Buren, Frank Clark, Joe Ray and Pat Harnman. The scenic effects are especially striking. The last showings are seen tonight.

ENID BENNETT IN "WHAT EVERY WOMAN LEARNS"

Enid Bennett in "What Every woman Learns" is the Paramount-Artcraft picture produced by Thomas H. Ince, that comes to the Alhambra theater for two days starting Wednesday.

This is heralded as a dramatic story of a disillusioned bride who happens to choose the parlor cut-up in preference to the staid youth who was practicing law.

When the girl's grandfather died he admonished—to get all the joys possible out of life and thus she refuses to wed a young man who has just been admitted to the bar. He was too staid and was continually talking about his first case instead of trying to amuse her. But she marries a young breezy sort of a chap who is funny, it seems, all the time; a regular parlor clown. He begs her to allow him to amuse her all through life and she marries him.

The girl is disillusioned a few months after, but bravely bears up. She finds that her husband's comedy was a thin veneer and that he was really a worthless fellow. And he loved to gloat over the attorney because he had won the girl.

In a drunken spell one day he tricks the young attorney into his home and shoots him. Then comes the dramatic situation that the young bride took such a prominent part in. The husband was telephoning the police to tell them that he had discovered the attorney with his wife and had shot him. But bullet from the direction of his wife cut short this speech. "What Every Woman Learns" is said to be one of the most dramatic plays Miss Emmett has so far appeared in.

ROBERT WARWICK PLAYS TWO DAYS AT ALHAMBRA

Robert Warwick, noted Paramount-Artcraft star will come to the Alhambra for two days beginning Friday and being screened in "The Tree of Knowledge," a very dramatic photoplay by R. C. Carton. As Nigal Stanyon, Mr. Warwick plays a role that is cleverly done. His support in which Kathlyn Williams is also seen, is a capable one.

"THE OLD HOMESTEAD" AT AUDITORIUM SOON

That prennial favorite for those who relish a good wholesome laugh and who revel in the romance of the wayward son, Denman Thompson's "The Old Homestead" comes to the Auditorium soon. This delicious comedy of New England farm life, with its side reflex of experiences in the gay metropolis, has lost none of its charm of former years.

See the old scenes again, the farm house up New Hampshire way and the church in New York, where Uncle Josh finds his wayward son, who went to the big city and found it just as bad as it is now, only the saloons were going full blast in those old days and a young man had more temptations. There is also the double quartet and the Grace church choir, the Swanzey Band and the Salvation Army.

The lovable character of old Joshua Whitcomb, that warm-hearted farmer, who devotes his life to doing that others may benefit and who radiates kindness and good will and makes sunshine wherever he happens to be, is interpreted by William Lawrence, who has the proud distinction of playing "Uncle Josh" over three thousand times. There is nothing new to be said of "The Old Homestead"—it is the same clean, wholesome and amusing story it was way back in April, 1886, when first produced at the Boston theater and is now on its 34th annual tour under the direction of Augustus Pitou Inc.

"THE HUNDREDTH CHANCE" AT THE GRAND THEATER

The feature attraction at the Grand theater tomorrow and Friday will be "The Hundredth Chance," produced by the Stoll Film Corporation of America. It is from the pen of Ethel M. Dell, one of the writers contributing to Stoll's World Famous Author's Series, a group of 25 of the world's foremost novelists.

The story is of a girl who in order to escape the blows—and the caresses—of her guardian accepts a proposal of marriage from Jack Bolton, a trainer of horses. The proposal is made in good faith by Jack, with the understanding that he must win the love of Maud Brian before she becomes his wife in fact. After the wedding Jack's employer, Lord Saltash, renews an old friendship with Maud and tries to induce her to elope with him.

Jack is not optimistic as to his chances of winning the love of Maud, believing it is about one in a hundred. In the stable under Jack's care there is a horse Jack believes has an excellent chance of winning a coming steeple-chase. He names the animal "The Hundredth Chance." How Jack wins two races in one day is stirringly told in this well-made adaptation of Ethel M. Dell's book.

The cast is a strong one. The player who portrays Lord Saltash is Dennis Neilson Terry, the son of the famous actress, Ellen Terry. Those who see "The Hundredth Chance" will agree Mr. Terry has inherited the remarkable acting ability of his mother. His role is not a pleasant one and he does not make any effort to have it so; he does play the unscrupulous Saltash, nevertheless, in most convincing manner.

Among the other principals are Mary Glynne as Maud Brian, Sydney Seaward as Jack Bolton and Eille Norwood as the surgeon who restores to health Maud's crippled brother. Mr. Norwood ranks as one of the most accomplished of Stoll players, having been honored by being selected to interpret Sherlock Holmes in the important series of productions now being made by the company.

USES MONEY AS LABELS ON BOTTLED BEER

Zurich, Switzerland, Jan. 26.—A local brewery is using Austrian one crown bills as labels for beer bottles. An Austrian paper crown is now worth about a quarter of a cent, while printed labels would cost at least double.

The brewery firm finds this novel labeling system a paying proposition for the reason that people eagerly collect the banknote labels in the hope that the crown may rise in value.

SEEK YE THE LORD while he may be found, call ye upon him while he is near.—Isaiah 55:6.

THE INCREASE OF AUTOMOBILES.

The number of automobile registrations in this country increased from 1914 to 1920 by 6,300,000. With all these machines tearing around, you can see why streets wear out. Also why the savings of the people are not sufficient to finance the farms and the factories.

Such an increase in facilities of movement, is on the whole a great blessing. It facilitates trade, creates a close link between town and country, and is an advantage to the health of the people. But such sudden development in what is a pleasure toy for the majority of people, tends to be spasmodic. Also millions of money are burned up that should go into farm equipment and road and railroad building.

Some people who have been working on automobiles may find it necessary to return to more primitive occupations, and some who have been riding in them will conclude that walking is also a healthful exercise.

TWO POINTERS ON GERMANY.

The military critic of the Berlin Vossiche Zeitung, who has just arrived in America, reports that the German people are all working hard. The period of low production due to war exhaustion sems to have passed, and the workmen have learned that strikes don't help them.

Another item came out last week in testimony at Washington before the ways and means committee, to the effect that German industry is recovering very much faster than was expected, even though wages are below the pre-war level. While the American people will not rejoice at German prosperity, this revival lessens the peril of bolshevism, and on the whole makes for the good of the world. It also warns other nations, that they must prepare for German competition.

THE COST OF FATIGUE.

A loss of 20 per cent per employe per day is caused, according to a writer in the National Safety News, by over fatigue of working forces. A certain amount of weariness is inevitable, and few people can work in late afternoon with quite the energy of early morning. But if needless fatigue is created, the loss becomes heavy enough to take the profit out of any business.

A tired and listless group of school children can often be set working again with energy, just by opening the windows a few moments. Similarly the workers in a factory, store, or office can't do good work in a poorly ventilated room.

Sufficient air space, plenty of sunlight, carefully regulated temperature, are among many conditions that help a working force get good production records.

ADVERTISING YOUR TOWN.

Almost any town can acquire a wide reputation, if it will study production so thoroughly as to turn out a superior product of any kind.
kind.

Twenty-five years ago a certain New England town was known merely as the scene of some old Indian massacres, and as a resort where painters of nature scenes used to gather. Outside of artistic and historical circles, few people had heard of it.

Then some bright women got together and laid plans for turning out a superior article of hand work in embroidery, basket making, rug weaving, etc. Their workmanship began to attract attention, and newspapers and magazine writers began to flock to the town to give them free advertising. Now that community is one of the best known country towns in the world.

HARDING AND CRITICISM.

(Philadelphia Record)

Under the heading "The Yelp of the Pack," The Public Ledger raises a shrill voice in defense of the President-elect, who, it says, from the day of his election "has been the object of malignant attack from The New York World and the class of journalism which yelps in unison with it." In the red-hot imagination of our contemporary "The World and the pack which trails it have been less critical of and less merciless to the perpetrators of red-handed crime. . . . In the situation every flouting word aimed at the President-elect is a fuse under stabilized government. Every leering phrase kindles the spark of hate, distrust and rebellion."

This is almost too silly for words. If The Ledger and other Republican papers imagine that the Democratic and independent press is to be restrained from perfectly fair criticism of Mr. Harding and his policies by the claim that such comments are "a fuse under stabilized government" they suffer under a grave delusion. We never noticed that in the very midst of the world war, when it was so essential to uphold the hands of President Wilson, Republican newspapers and politicians were at all reticent about finding fault with the Executive and seeking to undermine his influence in every way. Indeed, at the time when American soldiers were winning great battles abroad and bringing imperishable glory to the United States, the Republican party managers entered upon a deliberate campaign of misrepresentation and defamation which is almost without precedent in the history of our country.

Mr. Harding will take office in a time of domestic tranquility so far as the United States is concerned, and his administration will have to deal principally with matters of a home nature. There will be sharp differences of opinion on practically all questions raised, and from the past record of the G. O. P. it is certain that the interests of the people will in many cases be sacrificed to those of the privileged few. This is the policy in which Mr. Harding has always believed, and which he may be expected to follow.

If he does so, it will be the province of "The Record" and other independent papers to criticise him with severity not in a captious spirit, but because of the conviction that pandering to special interests is not for the best interests of the American people. If Mr. Harding drops partisanship and adopts a policy dictated solely by patriotism, it will be the pleasure of "The Record," and no doubt of other papers, to commend him according to his merits. No talk about packs and yelping and fuses under the government will be of the slightest influence in affecting the honest judgment of the new administration's critics. They reserve to themselves the right of independent opinion which American newspapers have always exercised.

BORROWED HUSBANDS

By MILDRED K. BARBOUR

XV.—The Old School-Mate.

The motor which waited for Nancy at the hotel entrance, was the last word in smart and luxurious equipment. The chauffeur's uniform was faultlessly correct. When the door was closed, automatically extinguishing the light on the step, Nancy felt herself shut into warm, velvety darkness.

She sank inches deep into soft cushions, and drew up the fur rug which the chauffeur had tucked about her. A current of warm air fanned her slippered feet. From the cut glass holder at her elbow, came the fragrance of Parma violets.

"My word, Edith has done well for herself!" she murmured, sinking her chin into her own chinchillas. "Chicago must be an unhealthy town, or else friend husband inherited money."

She remembered suddenly the listless voice and the words: "Oh yes, you have a husband too, haven't you?"

She wondered if life wasn't all velvet upholstery and Parma violets to Edith Endicott.

The city was too unfamiliar to Nancy for her to know where the motor was taking her, but she could see the broad shining boulevard, and the residences became larger and more impressive as they progressed.

Finally the machine turned into a short flagged drive and stopped under a porte cochere lit by a quaint lantern that might have come out of a Japanese print. The chauffeur sprang down and threw open the door, assisting Nancy to alight. The street door swung open noiselessly. An irreproachable man servant took her bag; a maid, appearing as though by magic, relieved her of her wrap, and she was ushered into an apartment almost as large as the whole of her own spacious home.

At the farther end of the room, which seemed to Nancy separated from her by miles and miles of parquetry spaced off by rugs of rich softness, a woman in a black gown rose from a great carved chair and held out both hands to greet her.

Nancy ignored the hands, and grasping Edith Langwell by both arms, gave her an ecstatic little squeeze. Then she raised her lips expectantly.

Mrs. Langwell bent and brushed her cheek against the upturning mouth rather awkwardly, but she smiled with genuine pleasure.

"Nancy Hope! It's good to see you again! How nice of you to come tonight."

"You couldn't have kept me away," confided Nancy with a charming smile.

She ignored the great carved chair toward which her hostess gestured, and seated herself on a gilt and brocade footstool pushing Edith Langwell gently into the chair.

"You look regal—it suits you."

Mrs. Langwell glanced a bit restlessly. Both women were experiencing that awkwardness that marks a first meeting after many years, when there is much to say and no adequate preface.

"Shall you be chilly here? We can have a fire."

Nancy gleamed about the room and shuddered involuntarily. Its corners were shadowy, despite the elaborately shaded lamps. Great wall mirrors doubled the size of the apartment. Not a cushion marred the rigidity of the gilded and brocaded furniture.

"Must we sit here?" asked Nancy. "Haven't you a sitting room where we can be a bit more informal? This is beautiful, of course," she added hastily, "But don't you remember our box of a room at school—so small that we could reach out in the morning and close the window and turn on the heat in the radiator, without getting out of bed? It will seem much more natural to chat with you at close range."

Mrs. Langwell smiled reminiscently.

"Later I will take you to my own quarters, but people may drop in this evening—and—" she hesitated, and then went on, "I'm afraid most of my house is a bit austere."

"Austere," Nancy murmured to herself, but she began to chatter vivociously about the things that happened since she and Edith Endicott had stood on the commencement platform, graceful, white-clad figures with rose-filled arms, looking across the heads of the audience that filled the rostrum with the eager, fearless eyes of youth.

Half-way through the recital, she paused to look curiously at the woman opposite her. Was this the same Edith Endicott?

ILLINOIS WILL DEDICATE CENTER

New Building To Be Devoted To Foreign Students Is Ready.

English College Will Be Represented at Ceremony Next Month.

Chicago, Jan. 25.—Lincoln College, Oxford, England, is to be represented at the dedication of the Social Center building of the Wesley Foundation at the University of Illinois, February 15.

John Wesley, the founder of the Methodist Episcopal church, was a fellow of Lincoln College for 25 years. In recognition of that fact the seal of Lincoln College has been carved over one of the bay windows of the new Wesley Foundation building at the University of Illinois.

The rector of Lincoln College in accepting the invitation to be present, wrote: "We are much interested in your foundation, and your recognition of the historical connection with Lincoln College."

The exercises in connection with the dedication will cover four days, beginning February 11 and closing February 15. Representative churchmen will be present from all over the United States and Canada. Four of the bishops of the Methodist Episcopal church will take part in the program: Bishops Thomas Nicholson of Chicago, Wm. McDowell of Washington, F. J. McConnell of Pittsburgh, and Theo. S. Henderson of Detroit.

A pageant put on by the University of Illinois students will be a feature of the exercises. This pageant will show John Wesley as a student at Oxford University as well as some of the later episodes of his life. The closing episode will be an international one and parts will be taken by foreign students of the university—Chinese, Japanese, Filipinos, Hindustani and Latin Americans.

Two of the most beautiful rooms in the building will be set apart for the use of the 230 foreign students of the university, and will be known as the international rooms.

The social center is the first of a group of buildings which the Methodist Episcopal church has under way at the University of Illinois under its centenary program. The entire group will cost over $1,000,000. The architecture is Gothic and the material used is Bedford stone.

Among the trustees of the Wesley Foundation are Bishop Thomas Nicholson of Chicago, and W. A. Heath, president of the Chicago Federal Reserve bank. Dr. James C. Baker, the director of the foundation, has been in charge of this work at the Univeristy of Illinois for 14 years.

That there is a pink grapefruit? This variety is a sport and was first discovered on a Walters tree in the grove of Reasoner Brothers at Oneco, Florida. Afterward a Marsh tree at Riverside, California, was found with a limb bearing pink fruit. From the seeds of this fruit young trees have been grown, the new variety being known as the Foster. There is a grove of Fosters near Phoenix, Arizona, which came into bearing in 1918.

GOVERNMENT CHARGED TRUST LAW VIOLATION

Washington, Jan. 26.—The open competition plan, with a membership of more than 300 lumber firms and individuals in 20 states and operated as a statistical auxiliary of the American Hardwood Manufacturers' association, was held to be in violation of the Sherman anti-trust law by the federal district court at Memphis, Tenn., March 16, 1920. The late Judge John E. McCall upheld the contention of the government that the operation of the plan tended to restrain commerce and eliminate competition in the hardwood industry. The injunction later was made permanent without further hearing, attorneys for both sides agreeing to stand on the evidence presented at the preliminary hearing in order to expedite and appeal to the United States supreme court.

The government's complaint, quoted circulars giving production figures, reports or sales and prices obtained, and other trade information, cintributed by subscribers of the plan and distributed through a central office in Memphis. It also charged that mutual understandings between the members were reached at regional monthly meetings.

The phrase, "Co operation and not competition is the life of trade," was cited by the government as the slogan of the organization.

Counsel for the lumbermen defended the plan as wholly within the law, denied that there was any intention to fix prices or destroy competition and argued that, even though the lumbermen might see fit, acting as individuals and through no concerted action, to increase or lower prices as might be considered warranted after receiving reports of conditions in the industry, that would not constitute a violation of the law. The charge that understandings were reached at the monthly meetings was denied.

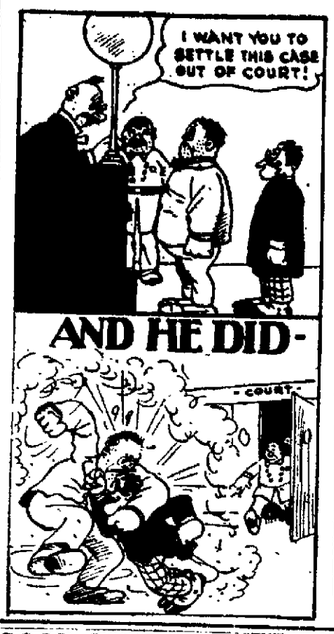

COLLEGE IS BEST ROUTE TO PRESIDENT'S CHAIR

Valparaiso, Ind., Jan. 26.—Thirty-six per cent of the members of congress, 55 per cent of the presidents of the United States and 54 per cent of the vice presidents have been college graduates, according to an announcement made by Dr. G. C. Borst, dean of education of the Valparaiso university.

Dr. Borst also made the statement that there is only one per cent of college graduates in our male population of graduate age.

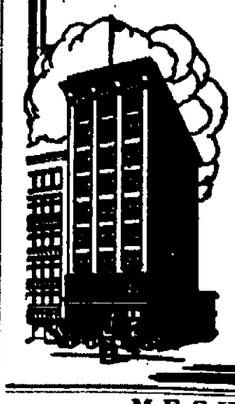

"Nearly 55 per cent of all cabinet members, 69 per cent of the justices of the supreme court and 85 per cent of the chief justices have also been furnished from this one per cent," said Dr. Borst.

Milady's Boudoir

Keeping Bautiful.
The housewife, married some years, should be just as careful when about her home as she was when a blushing bride. Carelessnes in donning the morning waist, kimona or coffee jacket should not be tolerated by any woman when she dresses for breakfast in the morning. Her hair, skin and working clothes should be arranged with just as much care as though she were going to an afternoon bridge party.

Many women after hours over the stove of performing household duties, have florid faces. While this is the result of the necessary exertions and nothing to be ashamed of, still it is not necessary to appear at the breakfast or dining table in this condition. Knowing that heat and exercises will bring not only color to the face but, in many cases, a coating of grease, it is one's duty to remove both for the sake of a good appearance, if not for beauty.

This is best done by wiping the face with a soothing astringent lotion and then applying an even coating of good face powder. Some women object to the use of face powder, but there is no harm in using it, provided the right kind is put on. A good cream should be used to clean it off the face when one retires.

Burns on the hands and arms are of frequent occurrence to the housewife and, aside from the pain, they do not add to one's appearance. In case of a burn at once apply linseed or sweet oil to the parts affected. Then quickly cover with baking powder and bind with a soft linen cloth. In ordinary burns this will quickly alleviate the pain and keep a scar from appearing.

Our Boys and Girls

Almost every child loves to own a pet, something to love of their very own and something to care for. Children who throw stones at cats and tie tin cans to a poor dog's tail, are not the children who own a little puppy or tabby cat in their own homes. Ownership of any pet causes a child to become generous, care taking and kind to the whole species.

If your little boy wishes to own a guina pig or a dog or even a rabbit out in the yard let him have it. If your little girl wants a kitten or a bowl of gold fish let her have them. But if they do own pets they should be taught to care for them and see that they are not neglected.

Children in every country have shown a strong desire to own something that is alive, and boys even more than girls are facinated by the ownership of a little pet. It teaches the children to be kind and gentle and to think for others.

ARE YOU CONGENIAL?

Thin-Blooded, Sick-Looking Men and Women Lack Enthusiasm

THEY NEED PEPTO-MANGAN

Red-Blooded, Healthy-Looking Folks Get Along Well Because They Feel Good

There is a thrill in glowing good health. You see it in the enthusiasm and good cheer of congenial people. Fatigue, bad color, dull eyes and listless feelings do not attract other people. You are not congenial when your are run down.

Nearly everybody gets out of sorts occasionally. They are positively unhappy for weeks and constantly tired and gloomy. Perhaps you are that way and can see no reason why. But there is a reason. More than likely it is because of bad blood. Temporarily your blood needs help. Pepto-Mangan is a well-known and very successful remedy for poor blood. It supplies what your blood needs. You pick up and become your old self again, your blood works as it should, keeping you fresh and alert, congenial and happy and strong.

Pepto-Mangan is sold in both liquid and tablet form. Both contain the same medicinal ingredients. One is as effective as the other

NEWSPAPER MEN NOT MIXED UP IN CRIME

New York, Jan 26—The crime wave in New York has been taken apart and inspected with some interesting results, according to John J. Lyons, secretary of state. And first let it be known that newspaper men and chorus girls walk pretty nearly 100 per cent within the legal "thou shalt not" lines. Only one chorus girl has been up before a judge last year and the newspaper profession is represented by one each of the following: Publishers, editor, reporter, correspondent, and advertising writer.

Clerks and chauffeurs, as a class, break the law most frequently. The two vocations ran a dead heat last year with 381 each.

The upholders of the law slipped somewhat in the upholding, breaches having been committed by four lawyers, one law clerk, one process server, four policemen, two patrolmen and one detective.

Piano movers, bricklayers, boxers, freight handlers, hackmen and pavers show up an honest lot. Only one of each was haled to court last year. One steeplejack took a legal tumble and 17 farmers ran amiss. Five who gave their vocations as "gentlemen" are found in the list. One added that he was a trimmer and another a mixer.

How the chorus girl carried off the blue ribbon in the realm of female law breakers is shown by this tabulation of legal infractions:

Cooks, 79; domestics, 88; housekeepers, 17; laundresses, 4; milliners, 3; seamstresses, 5; teachers, 4; waitresses, 89, and stenographers, 18.

MUSIC IS FEATURE OF WEST NEWARK REVIVAL

E. W. Thornton of West Side Church of Christ has secured P. M. Kendall, evangelistic singer of the Christian church to assist him in the special evangelistic services which are now in progress at the new building which has recently been constructed in West Newark. Mr. Kendall who is now engaged as minister of the Lisbon Christian church has for many years been engaged in the work of singing evangelist and teacher in Phillips Bible Institute of Canton. He has made several tours through foreign countries and on these tours has taken thousands of photographs especially of Palestine which were made for the purpose of making his evangelistic services more interesting and inspiring. He will show many of these pictures during his two or three weeks stay in Newark.

Mr. Kendall sings and plays the cornet and is especially strong in the leading of great audiences in singing. He has full charge of the music of these services and the music of a very inspiring nature.

Thursday night E. W Thornton will do all the preaching. Tonight the subject of the sermon is "What Must a Man Know to be Saved?" Thursday night "What Must a Man Feel to be Saved?" Friday night "What Must a Man Do to be Saved."

Mr. Thornton has arranged to answer questions in this meeting which have been put to him and that are upermost in the minds of the people of today. Last night the question answered was "What is Newark's ugliest sin?" This he showed to be what is possibly the world's greatest sin today. "I don't care."

ROTARIANS HEAR TALK ON LOCAL HIGH SCHOOL

In the absence of President Frank L. Beggs, C. H. Davis presided at the Rotary evening meeting at the Masonic Temple last night. Attendance at the meeting was light, many of the members being out of town.

Rotarian H. F. Moninger using as his subject "The Making of Rotarians" impressed his hearers forcibly with his stories of the struggles of some of the pupils at the high school to get along and get an education. His talk went from the humorous to the serious.

Rotarians Ray Sutley, Karl Reinbold, J. S. Herzog, F. S. Neighbor and W. F. Eilber each gave talks on the ethics of a Rotarian. Secretary Ralph Davis presented each one present with a copy of the code of ethics and all enjoyed the talks which applied to the first six of the eleven principles of Rotarians.

Rotarian John M. Roeser of the Dayton club dropped into the meeting near its close, stating that he had just arrived in town. He expressed his appreciation of the courtesies extended him and extended a cordial invitation to visit the Dayton club.

Through the courtesy of Rotarian Charles Pfeiffer and his guest James McAnistie, who played the piano the club enjoyed several selections of songs. Dr. Clark Hatch and Clay Van Voorhis led, Pfeiffer furnished the sheet music and Jimmy McAnistie performed on the piano to the satisfaction of all.

Thursday: Heisey vs. Y. Seniors; Heath vs. ? ? ?

A fair sized crowd saw the games in the Y Industrial basket ball league last night at the hall. The preliminary game Monday night between Heath and the Y Seniors bring both teams up to the others in the league for games played and somewhat changes the status of the squads.

In the first battle last night the American Bottle team walked in both halves and easily won the game. Burke was unable to force its team work into action and resorting to long shots, 28 to 8 was the final score.

The second contest proved that the Printers will not accept the cellar position in the league standing. While the two men led throughout the contest the game was close and several times it seemed Midland would take the lead. The second period was most exciting when the score was tied several times and then varied by a point, always in favor of the press men. Donaldson easily outpointed the rest of the players in the game. Final score: Printers 19, Midland 11.

Thursday's game between the Heisey squad and the Y. M. C. A. Seniors should be a dandy one providing the triangle boys get their best line-up in the field. The Y team has a good squad to draw from but very seldom do the stars get together for real action. It is expected that the best scrap of the Y Senior games will take place Thursday night. A second game will be played between the Heath squad and a team yet to be select ed

SECURE FINE COSTUMES FOR K. OF P. MINSTRELS

Complete costumes for the Pythian minstrels which will be given at the high school auditorium Thursday and Friday, Feb. 3 and 4, were arranged for by William F. Graef and Charles Vanatta, members of the committee and Paul Brown who were in Columbus last week.

The costuming for the minstrels will be elaborate and the committee secured the best available for the purpose.

The Crescent Comedy Four has been taking an active part in the preparation of the show, combining the experience of its members with talent available in the Pythian lodge membership.

This team of entertainers, Emil Lautenschlager, Harry Ingram, Fred and Clyde Cole will have a part in the event.

Ingram has directed the work of the dancers, Lautenschlager the solo and chorus work while the instrumental music has been under the supervision of Fred and Clyde Cole.

This quartet will be a feature in the first part and in addition will have a short act in the olio, which the boys call "The Recruiting Station."

Critics who have looked over the show have pronounced it high class and have spoken highly of the music. A feature will be the double quartet in the latest song hits from the east.

ORDINANCE No. 3181.

By MR. BAZLER.

An Ordinance fixing and establishing the rate or price to be charged for natural gas by The Newark Natural Gas and Fuel Company, its successors and assigns, to the citizens and consumers of natural gas in the City of Newark Ohio, and repealing Sections 2, 3 and 4 of Ordinance No. 2577, and all other ordinances, resolutions or parts of same in conflict herewith, passed March 6, 1916.

Whereas, it appears that there is a depletion in the gas producing fields from which Newark is now supplied, and that there is and has been an increased cost incident to the production and marketing of natural gas caused by changed economic conditions during the time which said Ordinance No. 2577 has been in force and effect; and,

Whereas, The Newark Natural Gas and Fuel Company has expressed its willingness to put forth every reasonable effort, financial and otherwise, to obtain during the life of this ordinance a reasonable supply of natural gas for at least the domestic consumers thereof within the municipality of Newark, Ohio, and

Whereas, in consideration of the passage of this ordinance The Newark Natural Gas and Fuel Company, its successors and assigns, do hereby agree not apply to the Public Utilities Commission of Ohio for a change in rates during the life of the franchise granted by virtue of Ordinance No. 1318, Revised Ordinances of the City of Newark, Ohio, and to pay for the legal publication of this ordinance; and,

Whereas, in the opinion of the Council, based upon personal investigation and dependable information, the schedule of rates hereinafter set forth, will result in a more careful and economical use and consumption of natural gas furnished to them in the City of Newark, Ohio, by The Newark Natural Gas and Fuel Company, all of which should make available sufficient gas to meet at least the necessary domestic demands of the inhabitants of Newark, Ohio, during the immediate winter months and thereafter during the life of this ordinance:

Now, Therefore be it resolved by the Council of the City of Newark, State of Ohio:

Section 1. That from and after the effective date of this Ordinance until the expiration of the franchise granted by the City of Newark to The Newark Natural Gas and Fuel Company, by Ordinance No. 1318, the date of the expiration of which said franchise will be February 21st, 1928, the City of Newark, Ohio, establishes, fixese and regulates as the maximum price The Newark Natural Gas and Fuel Company, its successors and assigns, shall be permitted to charge and the minimum it shall be required to furnish natural gas for light and fuel to all persons, firms or corporations using or consuming same, shall be and the same is hereby fixed for each individual user or consumer in the City of Newark, Ohio, as follows:

For the first 5,000 cubic feet, each month, 48c per thousand cubic feet.

For the next 5,000 cubic feet, each month, 53c per thousand cubic feet.

For the next 5,000 cubic feet, each month, 58c per thousand cubic feet.

For all over 15,000 cubic feet, each month, 63c per thousand cubic feet.

Payable at the office of the company in the City of Newark, Ohio, on the first day of each month, or such other days or dates as may be established by said company for the maturity of the bills in the City of Newark; subject, however, in the case of each bill which will be paid within ten (10) days from the first of the month succeeding that in which the gas is used or consumed, or bther date of maturity as established therefor, to a discount of three (3) cents per thousand cubic feet.

Section 2. That in event any consumer shall use no gas, or less than two (2) thousand cubic feet in any month, the company may charge and the consumer shall pay for that month for two (2) thousand cubic feet of gas, as though the same had been consumed by him, at the maximum price per thousand herein fixed for the first five thousand cubic feet, subject to like terms of payment and discount.

Section 3. That Sections 2, 3 and 4 of Ordinance No. 2577 and all other ordinances, resolutions or parts of same in conflict herewith, be and the same are hereby repealed.

Section 4. This ordinance shall take effect and be in force from and after the earliest period allowed by law, providing that said company shall file written acceptance thereof with the city.

STATE SEEKING TO PREVENT BLINDNESS

"A case tried in municipal court Monday brings to light the efforts being made by the state board of health through its 'prevention of blindness' department to reduce the number of persons who have to go through life deprived of their eyesight," says a statement issued by the health department.

"The records show that more than 25 per cent of the cases admitted to the state institution for the blind, have resulted from neglect of prompt and careful treatment of what is known as 'inflamation of the eyes of the new born.

"A recent state law requires physicians, nurses, parents and any others having care of infants within two weeks of their birth, to report all cases of inflamation, swelling or running of the eyes within six hours of discovery to the public health officer or commissioner and he, in turn, to the state board of health which promptly provides skilled nursing and care for the infant afflicted.

"Failure of anyone having the care of the infant in such cases to report the case within six hours carries with it the penalty of a fine ranging from $50 to $100 for first offense and $100 to $300 for each subsequent offense.

"The state and local board of health are earnestly endeavoring to minimize the number of unfortunates who must go through life without seeing and are anxious for and insistent upon the faithful co-operation of physicians, nurses and parents in promptly reporting all cases."

KEYWORKER ENTERS WESTERN AVE. HOME

Thieves entered the home of Mrs. Henrietta Collins who lives alone at the corner of Eighth street and Western avenue last night and secured between $45 and $20. Mrs. Collins stated this morning that she retired at 8:30 and did not discover the loss until this morning when she arose.

She said entrance was gained by unlocking the front door, she having taken the key from the lock in order to enable her son, Conductor Harry Collins of the Granville car, to come in with his key. One supposition regarding the robbery is that yesterday being Ohio Electric pay day ,the thieves intended to rob Mr. Collins who lives at 252 West Main street and got the wrong house.

Nothing except the money was taken from the house.

Chicago Grain Review.

Chicago, Jan. 26.—Wheat underwent a material setback in price today owing to assertions that no export tax would be probably in Argentina for sometime and that such grain could be exported without the tax. Opening prices which ranged from half to 1 1-2 cent lower with March $1.65 3-4 to $1.66 1-2 and May $1.56 1-4 to $1.56 3-4, were followed by moderate further declines.

Future deliveries of corn and oats dropped to the lowest price level yet this season. Liberal receipts of corn had a bearish influence. Corn after opening 3-8 to 5-8 cents lower, including May at 67 5-8 to 67 3-4 cents went further down grade.

Oats were depressed by the big stocks in sight, starting at 1-8 @ 1-4 to 1-2 cent decline, March 43 5-8 @ 43 3-4 cents, the market continued to descend.

Provisions tended downward with grain.

Wall Street.

New York Jan. 26.—Leading shares were mainly higher at the opening of today's stock market, with General Asphalt common as the most prominent feature, gaining 2 1-4 points in the first few transactions with the preferred advancing 2 1-2. Most other oils were strong, as were also chemicals. International Paper and coalers. United States Stel made absolutely no response to the financial statement issued after the close of yesterday's session. Exceptional strength was shown by foreign exchange, the early rate for demand bills on London rising to 3.82 1-2. This established a new high record for over six months.

The market made further upward progress during the morning, subject to realizing sales which were most effective in the steels. Asphalt shares continued to lead, the common rising almost five points and the preferred four. Mexican Petroleum gained 3 1-4 and others of that division one to three. Motors, equipments, sugars, leathers and tobaccos comprised the strong specialties. South Porto Rico sugared gained nine points and Liggett and Myers 7 3-4. Exchange made further improvements, the London rate mounting to 3.83 3-8. Call money was firm at 7 per cent on further prospective federal withdrawals.

FORTIFY AGAINST DISEASE

Persons in a Run Down, Half-Sick Condition, Quick to Fall Victims to Winter Ailments.

The one safeguard against winter ailments is to fortify yourself against an attack by keeping yourself in good condition.

If you are in a weak, nervous, run-down, debilitated condition you are liable to contract a disease very readily. If, on the other hand, you are in good health, you are practically immune from any disease, or at least able to resist it.

The new herbal remedy Redex is a splendid preparation for persons in a run-down, nervous condition. Redex restores to all the organs the natural operations upon which health, strength and vitality must depend. By its use indigestion, biliousness, flatulency, gastritis, liver and kidney troubles, insomnia, constipation are invariably eradicated from the system.

Redex is on sale at Erman's, Evans' and all first class druggists in Newark.

THE HOUSEWIFE OF 1921

Now that Woman's Suffrage is a reality the American woman must henceforth be considered not merely as a housekeeper and home-maker, but as a voter—a citizen and a force in this busy work-a-day world. With added responsibilities her health should never be neglected, and when beset with ailments peculiar to her sex she owes it to herself to first give that grand old medicine Lydia E. Pinkham's Vegetable Compound, a trial, as for over forty years it has been the standby of American women in restoring them to health and strength.

THRIFT

Thrift is not self-denial of the enjoyments of life.

Thrift is the regulation of our income in such a manner so that you can participate in the good things of life now and in the future by sensible distribution of spending and saving.

During the days of high wages and high prices, when everyone spent freely and indulged in pleasures and conveniences that they never could afford before, the savings deposits in the banks of the country increased tremendously—particularly among wage earners. There was a chance for thrift and good living.

But if buying stops, production stops, work becomes scarce, wages come down, thousands are unemployed and the chance for saving, thrift, or the purchase of enjoyments and extra comforts become rare.

When you stop buying, you put a binder on the payroll—on mine, on the man who buys from me, on the things you are paid to make, and the boss who pays you to make them.

WHO'S THE GOAT—YOU ARE EVENTUALLY.

USE IODINE FOR SKIN IRRITATONS

Pimples and Blemishes Vanish.

If people would only have Iodine in the home at all times for a family remedy, they would nip in the bud many serious afflictions and always have an antiseptic and healing remedy for everyday accidents and ailments says a woman who speaks after many years' experience in raising a large family.

"Take Eczema for instance," she says "we used to call it St. Anthony's fire when I was young. The red, irritated swollen skin, the itching and burning are maddening, and Iodine is the remedy."

Physicians are practically unanimous in recommending Iodine. They prefer it in its best form—Lanolated Iodine Compound—which is soothing, healing and powerful, yet never irritates or blisters, and is practically stainless. It is quickly absorbed into the tissues and glands, usually giving prompt relief.

Druggists have this agreeable Iodine ointment and gladly recommend it as it gives unusual satisfaction. Be sure to get Lanolated Iodine for best results.

IN MOTHERHOOD

A woman needs all the strength possible to take good care of her baby. The reflections of a married woman are not pleasant if she is delicate, run-down, or over-worked. She feels "played out." Her smile and good spirits have taken flight. It worries her husband as well as herself.

This is the time to build up her strength and remove those weaknesses or ailments which are the seat of her trouble.

Dr. Pierce's Favorite Prescription regulates and promotes all the proper functions of womanhood, enriches the blood, dispels aches and pains, melancholia and nervousness, brings refreshing sleep, restores health and strength. It overcomes those disorders and derangements of womanhood. It makes weak women strong and sick women well. All druggists. Liquid or tablets.

CLEVELAND, OHIO.—"In my early married life I had woman's trouble. I took medicine of different kinds but did not get any relief until I began taking Doctor Pierces Favorite Prescription, and two bottles completely cured me of my weakness, and I afterward became the mother of strong, healthy children. 'Favorite Prescription' made a new woman of me, and I am glad to recommend it. I want to say that women who are weak and ailing should give this wonderful woman's medicine a trial."—MRS EMMA STROHMEYER. No. 2461 East 82nd Street.

"Outside of reading, writing, arithmetic and geometry, music has more educational value than any other subject taught in the schools."
